Hon. William P. Bowne.

This gentleman, who while he discovered the oil, or day, that the delegation from the County ought not to be harnessed while there were two candidates in the field, and who, although he had merely the entire delegation, gracefully but firmly withdrew his name before the balloting commenced—is for serving of the warmest gratitude of his political brethren. He could have gone to vote without injury to his cause by himself, yet he sacrificed his own chances in favor of others. This was generous and magnanimous. No man in the field stood higher or had warmer friends than Mr. Bowne; no man stood better among the people; yet he yielded all these vantages for the good of the party, when success should have nothing to use their harmony. The letter of withdrawal sent in by him was couched in admirable language. He exercise freely an excellent public duty, and the people of his County and District; and we have no doubt that he will, in due time, receive his reward. The enthusiasm which preceded his nomin in Universal, is not as it should be of the high respect in which he is held wherever known by his public acts or in private life.

An Imposition.

DEAR SIR.—Within the past few weeks some merchants have practiced a very unfair and mean business, especially upon times not capable of judging in taking and paying out old quarters. We have been gulled to the amount of forty cents by these operations, and believe it is time to know to shuffle off some of his recent transgressions upon "poor ten dollars". Some young lesson means, who has evidently "learned in the school of his tone here" and wields himself of all good opportunities to exhibit his natural and acquired naughtiness.—Where is the "little joker."

The colored Camp Meeting near Mount Pleasant last Sunday was attended by quite a large concourse of people, about two-thirds of whom were white, many of them attended out of mere curiosity. The preaching is said to have been of the genuine African stamp. One speaker, in relation to the Day of Judgment said, "in dat day dey will be colder marriage see gibben in marriage, or egg colder dependence." Singing is a very prominent part at these gatherings, in which the "sisters" join, accompanied with various grotesque gesticulations.

Found Drowned.—The body of Mr. Jas. Miller, formerly Mayor of Newark, was discovered Saturday evening in the dock at the foot of Beach street. Mr. Miller left his house to attend the Cake celebration in Jersey City on Thursday evening last. He was suffering from mental aberration, caused by losses in business, and it is supposed that in this condition he either committed suicide or accidentally fell into the water and was drowned.—There were no marks of violence on his person.

The speech of Mr. Stratton in the recent Convention, assured us that the Democrats of this district would find him as a tough customer on the stump.—The "little Giant" of the district.—His remarks were brief and appropriate, consisting of hearty thanks and a plain exposition of how he stood. And the Convention federal beaten with an honest and man by his exactity of manner and straightforward speech.

Difficulties at Quarantine.

During the bustle and excitement which the Quarantine building were again destroyed by fire. Five persons, namely, Ray Vanderveer, John Jobs, Jr., Charles Dubois, William Hulse and Matthew Carnes, were arrested upon suspicion charging them with complicity in the destruction of the hospitals and other buildings, and it is stated that warrants were issued for the apprehension of eight others. It appears that the principal instigator of the mischief is the son or Gov. Pennington, of New York, who having a small pox patient in his house on Staten Island, sent out a portion to the city authorities for quarantine purposes. The two origin then is to be found in the circumstance that this hospital, immediately vacated, and other were hastily fabricated as best circumstance. By Tuesday the excitement was such that the New York, brought hither a justice, and thereat on hall, the amount fixed bail only $200—Com. Vanderbilt bonding his security. To say nothing of the arrange ments shown in the affairs, by any bringing of the prisoners resulting, by any nothing of the cities of New York, which is only next to that of Quarantine, property worth half a million dollars, is destroyed, and the band criminal allowed to go at large on bailing security to the amount of $5,000!!!

But the sufferers will not be let rest on the Staten Islanders, if not on our community, which has aligned in it. Gov. Pennington and Mayor Wood who had assisted in the hasteful outrage were there on. This the great crime, the destruction of property for the purpose of promoting the legal opinion the ravages of disease, will become the theme of writers for fidelity and through our cities, plague and famine, which is only next to that of disease, property worth half a million dollars, is destroyed, and the band criminal allowed to go at large on bailing security to the amount of $5,000!!!

The Newark Mercury says the people of N. York have a perfect right to do as they please with their quarantine and pest-houses. Very true, so they have, and so have we a perfect right to do as we please with our own Democratic majority.

Some of their journals think that the New York Democratic organization should be shivered to atoms. Unstained be the rock, and that day could have regretted the matter without difficulty. Such a consummation is to believe that it has so seriously damaged them. Island will do honour good to Monmouth county, while others still, prepare to serve upon the storied territory. Then the Empire State, and then the Staten Island shouldst entered to us. Any other proposition would be satisfied to have a New Jersey Legislature, and the man who urged it would be consigned to political extinguishment.

Fifth Congressional District—Hon. William Pennington Nominated.—The Assembly, Republican and Anti-corruption Conventions to nominate a Candidate to represent the Fifth District in Congress, upon the expiration of the term of Mr. Worthington the present Democratic incumbent, convened at Elizabeth, in Union county, on Wednesday last. This district is composed of the counties of Hudson, Bergen and Union. Mr. Lyon of Hudson, was elected Chairman of the Convention. The following gentlemen were elected Secretaries, to serve during the session:—Delos A. Gregory, Esq., H. D. Vallear, H. W. S. McDougall, Esq., John Whitehead, Esq., Secretary. It. At the close of the proceedings, J. W. Scott, Esquire, of Newark, moved that a committee of three be appointed by the chairman to report a list of names for the nomination of a candidate for Congress. The proposition which was seconded by Mr. Whitehead, of Union county, was approved, and in a manner, Mr. Pennington received the unanimous support of the Convention. The Convention then adjourned sine die.

Dr. Moses Jaques, a venerable resident of Rahway, died recently, aged 86 years. He was a native of Connecticut, and came to Rahway in 1795. He was a Democrat in politics, once represented Union county in the Legislature, and was a member of the Convention which framed our present Constitution.
