(over)

Because Isaac must have come here as a baby  
(lived here 9 yrs and died at 91) born in Italy.

I would guess his parents also were born there.

This is a logical guess.

I know it is difficult to get some of this but  
sometimes you can if you keep digging.

My Father's family came from Ireland. My Dad  
always said my Great Grandmother was not Irish.  
It took a lot of digging, but I discovered she came  
to the U S as a young child with her father. Since  
they were Roman Catholics I have to assume the  
Mother must have died and Dad and little girl  
came here after that. My Great Grandfather  
came here in 1851 so times were tough in Ireland.  
They (great grands) met and married here.

None of this matters to you. Just  
pointing out how things could have happen  
and getting info can be hard.

Good luck & hope this  
helps.
